Introduction

Receive high-quality solar equipment and services, from R.T.S SOLAR SOLUTIONS based in sunny Tucson, AZ. Whether your project is large or small we can help provide the resources and solutions you need to get the job done right and the way you want it. R.T.S. strives for consistency, timely service,

and subject matter expertise making insurmountable tasks possible to overcome. We want to show the country that solar is easy, affordable, and, within your means. Don't strap your self to noisy generators and costly smelly gas.

You can have 12/120 volt power when boating or camping without the need for shore power. Do you live in hurricane, snow storm, tornado states, or, anywhere a power outage is possible? Take a good look at our [portable power packs – emergency preparedness](#) should be at the top of your family's list. Start with our portable solar chargers in conjunction with our portable power packs, and this will allow Marine, RV, and even tent campers to enjoy 120 volt comfort and it is totally portable. Stop running your boat engine just to charge your batteries. Run laptops, charge cell phones, light up the night, watch TV, play music, or, just keep in your closet at home for emergency power outages all from our [portable power pack categories](#). R.T.S. Solar Solutions can build custom power packs to suit your specific needs. Call for a quote.

It's time to join the PORTABLE SOLAR REVOLUTION. R.T.S. SOLAR SOLUTIONS Inc. in cooperation with SOLAR LAND USA has developed portable and fixed solar systems specifically for charging RV and Marine battery banks. We offer many different products by many different distributors; please call for warranty information on specific items. Trickle chargers which keep your batteries charged when units are being stored for long periods of time to larger units that can keep your 12/120 volt appliances going without the need for a noisy gas generator or shore power. Imagine watching TV after quite time late at night, use your tablet or laptop, or charge your cell phone while you sleep. Boaters, stop running your engines when you're out for a day of boating just to charge your batteries. Solar can be used for golf carts, food carts, horse trailers, ATVs, or anything with a battery system. The possibilities are many with free renewable energy from the sun.

We are here to assist you by providing a wide range of solar

equipment at affordable prices. R.T.S. SOLAR SOLUTIONS is expanding our inventory and product lines all the time with high quality affordable products.
