

194 LED Bulb – 15 SMD LED Tower – Miniature Wedge Retrofit

LED replacement bulbs can fit numerous boat and RV applications such as ceiling lights, dome lights, map lights, step lights, footwell lights, bow lights and anchor lights. This 194 bulb replaces a variety of traditional bulbs including 194, 168 and 912 bulbs. It has 15 LEDs (SMD) that are radially mounted to create a 360° viewing angle for better, all-over light emission with reduced hot spots. Produces up to 75 lumens at 3300K or 6300K. Tower-style design with miniature wedge base for easy plug-and-play installation. The energy-efficient bulb operates within a wide 9-14.5V DC range and is designed to last 40,000 hours on your motorhome or boat—33 times longer than incandescents. Available in green and amber. Not sold in pairs. Price per bulb.

1156 LED Bulb – 27 SMD LED Tower – BA15S Retrofit

LED replacement bulbs can fit numerous boat and RV applications such as navigation lights, cabin lights, dome lights, tail lights, brake lights, reverse lights, turn signals or side marker lights. This 1156 single-contact bulb has 27 LEDs (Epistar 5050 SMD) that create a 360° viewing angle for better, all-over light emission with reduced hot spots. Produces up to 320 lumens at 6200K. Tower-style design

with a BA15S 15-mm bayonet base for easy plug-and-play installation—just twist to lock in place. The energy-efficient bulb operates within a wide 10-30V DC range and is designed to last 30,000 hours on your motorhome or boat—25 times longer than incandescents. Available in cool white, amber and red. Not sold in pairs. Price per bulb.

1157 LED Bulb – Dual Function 27 SMD LED Tower – BAY15D Retrofit

LED replacement bulbs can fit numerous boat and RV applications such as navigation lights, cabin lights, ceiling lights, dome lights, tail lights, brake lights, reverse lights, turn signals or side marker lights. This 1157 dual-contact, dual-function bulb has 28 LEDs (0.5-watt SMD) that create a 360° viewing angle for better, all-over light emission with reduced hot spots. Produces up to 550 lumens at 6000K. Tower-style design with a BAY15D 15-mm bayonet base for easy plug-and-play installation—just twist to lock in place. The energy-efficient bulb operates within a wide 9-14.8V DC range and is designed to last 30,000 hours on your motorhome or boat—25 times longer than incandescents. Available in cool white, amber and red. Not sold in pairs. Price per bulb.

194 LED Bulb – 5 SMD LED Tower – Miniature Wedge Retrofit

LED replacement bulbs can fit numerous vehicle applications such as vanity lights, dome lights, map lights, dashboard lights and trunk lights. This 194 bulb replaces a variety of traditional bulbs including 194, 168 and 912 bulbs. It has 5 LEDs (5050 SMD) that are radially mounted to create a 360° viewing angle for better, all-over light emission with reduced hot spots. Short, tower-style design with miniature wedge base for easy plug-and-play installation. The energy-efficient bulb operates within a wide 9-18V DC range and is designed to last 30,000 hours on your vehicle—25 times longer than incandescents. Available in cool white, UV (blacklight), blue, green, amber and red. Not sold in pairs. Price per bulb.

194 LED Bulb w/ Socket – 5 SMD LED – Miniature Wedge Retrofit

LED replacement bulbs can fit numerous boat and RV applications such as ceiling lights, dome lights, map lights, step lights, cabin lights, footlights, bow lights and anchor lights. This 194 bulb replaces a variety of traditional bulbs including PC168 and PC194 bulbs. It has 5 LEDs (5050 SMD) that are radially mounted to create a 360° viewing angle for better, all-over light emission with reduced hot spots. Produces 100 lumens at 7100K. Short tower-style design with

miniature wedge base and included instrument panel socket for twist-lock installation. The energy-efficient bulb operates within a wide 9-18V DC range and is designed to last 30,000 hours on your motorhome or boat—25 times longer than incandescents. Available in cool white, UV (blacklight), blue, green, amber and red. Not sold in pairs. Price per bulb.

Base Type	T10S-TW	Beam Angle	360 degree
Comparable Wattage	5~10 Watts	LED Quantity	5 LEDs
LED Type	5050 SMD	Lumen	75 Lumen
Operating Temperature	-30~+85 °C	Oversize	No
Polarity Sensitive	Yes	Standards And Certifications	CE/ROHS Compliant
Storage Temperature	-40~+100 °C	Operating Voltage	9~18 VDC
Replaces Stock Bulb: PC160, PC161, PC168, PC168B, PC175, PC194, PC194G, PC195, PC195NA			
Dimensions: 2.535cm(1") x 1.214cm(0.48") x 1.106cm(0.44")			
All specifications are subject to change without notice.			

194 LED Bulb – 15 SMD LED Tower – Miniature Wedge Retrofit

LED replacement bulbs can fit numerous boat and RV applications such as ceiling lights, dome lights, map lights, step lights, footwell lights, bow lights, anchor lights and eyebrow lights. This 194 bulb replaces a variety of traditional bulbs including 194, 168 and 912 bulbs. It has 15 LEDs (3014 SMD) that are radially mounted to create a 360° viewing angle for better, all-over light emission with reduced hot spots. Produces up to 100 lumens at 3000K or 6500K. Tower-style design with miniature wedge base for easy plug-and-play installation. The energy-efficient bulb operates within a wide 9-14.5V DC range and is designed to last 30,000 hours on your

motorhome or boat—25 times longer than incandescents. Available in cool and warm white. Not sold in pairs. Price per bulb.

Base Type	Miniature Wedge	Beam Angle	360 degree
Bulb Type	4/921/T5/T3-1	Comparable Wattage	10~15 Watts
Dimmable	No	LED Quantity	15 LEDs
LED Type	3014 SMD	Lumen	100 Lumen
Operating Temperature	-30~+85 °C	Oversize	Yes
Polarity Sensitive	No	Standards And Certifications	ROHS Compliant
Storage Temperature	-40~+100 °C	Operating Voltage	9~14.5V AC/DC
Replaces Stock Bulb: 158, 160, 161, 161B, 168, 168A, 168NA, 175, 192, 193, 194, 194B, 194G, 194NA, 194R, 2821, 2825, 2827, 2886X, 3652, 558, 579, 658, W5WB
