

10" Off Road LED Light Bar – 50W

Lifetime warranty on all off road LED light bars. 50 Watt 10in Off Road LED light bar with 10 x 5 Watt high power CREE LEDs in a single row array. The Pro Series is for those who are serious about light. An exceptional combination of modern, sleek design with extreme light output, rugged durability and maximum efficiency. Combination of 10 degree narrow spot beam pattern for focusing on long range distances and 35 degree wide flood beam pattern for close but wide range illumination immediately surrounding the vehicle. IP68 waterproof light with 12-24VDC operating voltage range. Black painted aluminum housing with integral heatsink and polycarbonate lens. Includes adjustable stainless steel mounting bracket with studs. 10.25in wire lead with DT connector. Dimensions: 37.48cm(14.76in) x 6.38cm(2.51in) x 10.97cm(4.32in).

14.5" Heavy Duty Off Road LED Light Bar – 72W

Lifetime warranty on all off road LED light bars. 72 Watt 14.5in Off Road LED light bar with 24 x 3 Watt high power LEDs in a double row array. IP67 waterproof light with 12-24VDC operating voltage range. Black painted aluminum housing with integral heatsink and polycarbonate lens. Includes adjustable stainless steel mounting bracket with studs. Dimensions: 36.8cm(14.49") x 6.6cm(2.6") x 9cm(3.54").

17" Heavy Duty Off Road LED Light Bar with Multi Beam Technology – 216W

Lifetime warranty on all off road LED light bars. 216 Watt 17in Off Road LED light with 72 x 3 Watt high power CREE LEDs in a quad row array. Combination of 30 degree narrow spot beam pattern for focusing on long range distances and 60 degree wide flood beam pattern for close but wide range illumination for areas immediately surrounding the vehicle. Spot and flood beam patterns can be individually activated or combined for maximum light intensity and spread. 9-32VDC operating voltage range. IP67 waterproof light with 9~32VDC operating voltage range. Powder coated aluminum housing with integral heatsink and polycarbonate lens.

20" Off Road LED Light Bar – 100W

Lifetime warranty on all off road LED light bars. 100 Watt 20in Off Road LED light bar with 20 x 5 Watt high power CREE LEDs in a single row array. The Pro Series is for those who are serious about light. An exceptional combination of modern, sleek design with extreme light output, rugged durability and maximum efficiency. Combination of 10 degree narrow spot beam pattern for focusing on long range distances and 35degree

flood beam pattern for close but wide range illumination immediately surrounding the vehicle. IP68 waterproof light with 12-24VDC operating voltage range. Black painted aluminum housing with integral heatsink and polycarbonate lens. Includes adjustable stainless steel mounting bracket with studs. 10.25in wire lead with DT connector. Dimensions: 62.88cm(24.76in) x 6.38cm(2.51in) x 10.97cm(4.32in)

20" Curved Off Road LED Light Bar – 120W

Lifetime warranty on all off road LED light bars. 20in Off Road Curved LED light bar mimics the radius contour of most windshields and front bumpers found on ATV, UTV, trucks and SUVs. Curved design with narrow spot 8 degree beam pattern LED also focuses on long range distances with a wider light dispersion illuminating everything in and around the forward path vehicle. 120 Watt – 40 x 3Watt high power CREE LEDs in a double row array. IP67 waterproof light with 10-30VDC operating voltage range. Black painted aluminum housing with integral heatsink and polycarbonate lens. Includes full 360 degree adjustable angle aluminum mounting feet on bar ends. 40in wire lead with mating 13in DT connector.

21" Heavy Duty Off Road LED Light Bar – 54W

Lifetime warranty on all off road LED light bars. 54 Watt 21in Off Road LED light bar with 18 x 3 Watt high power LEDs in a single row array. IP67 waterproof light with 12-24VDC operating voltage range. Black painted aluminum housing with integral heatsink and polycarbonate lens. Includes adjustable stainless steel mounting bracket with studs. Dimensions: 53.6cm(21.1") x 5.5cm(2.17") x 8.6cm(3.39").

30" Off Road LED Light Bar – 150W

Lifetime warranty on all off road LED light bars. 150 Watt 30in Off Road LED light bar with 30 x 5 Watt high power CREE LEDs in a single row array. The Pro Series is for those who are serious about light. An exceptional combination of modern, sleek design with extreme light output, rugged durability and maximum efficiency. Combination of 10 degree narrow spot beam pattern for focusing on long range distances and 35 degree flood beam pattern for close but wide range illumination immediately surrounding the vehicle. IP68 waterproof light with 12-24VDC operating voltage range. Black painted aluminum housing with integral heatsink and polycarbonate lens. Includes adjustable stainless steel mounting bracket with studs. 10.25in wire lead with DT connector. Dimensions: 88.28cm(34.76in) x 6.38cm(2.51in) x 10.97cm(4.32in).

50" Off Road LED Light Bar with Spot/Flood Combo Beam – 240W

Lifetime warranty on all off road LED light bars. 240 Watt 50in Off Road LED light bar with 24 x 10 Watt high power CREE LEDs in a single row array. Combination of 10 degree narrow spot beam pattern for focusing on long range distances and 120 degree wide flood beam pattern for close but wide range illumination immediately surrounding the vehicle. IP67 waterproof light with 9~32VDC operating voltage range. Black painted aluminum housing with integral heatsink and polycarbonate lens. Includes adjustable aluminum mounts. 38in wire lead with mating 12in ATP connector. Dimensions: 126.45cm(49.78") x 8.36cm(3.29") x 12.42cm(4.89").

50" Off Road Curved LED Light Bar – 288W

Lifetime warranty on all off road LED light bars. 50in Off Road Curved LED light bar mimics the radius contour of most windshields and front bumpers found on trucks and SUVs. Curved design with narrow spot 8 degree beam pattern LED also focuses on long range distances with a wider light dispersion illuminating everything in and around the forward path vehicle. 288 Watt – 96 x 3 Watt high power CREE LEDs in a

double row array. IP67 waterproof light with 10-30VDC operating voltage range. Black painted aluminum housing with integral heatsink and polycarbonate lens. Includes adjustable aluminum mounts. 38in wire lead with mating 12in ATP connector.

6.5" Quad Row Heavy Duty Off Road LED Light Bar with Multi Beam Technology – 72W

Lifetime warranty on all off road LED light bars. 72 Watt 6.5in Off Road LED light with 24 x 3 Watt high power CREE LEDs in a quad row array. Combination of 30 degree narrow spot beam pattern for focusing on long range distances and 60 degree wide flood beam pattern for close but wide range illumination for areas immediately surrounding the vehicle. Allows spot and flood beam patterns to be individually activated or combined for maximum light intensity and spread. 9-32VDC operating voltage range. IP67 waterproof black painted aluminum housing with integral heatsink and polycarbonate lens. Includes stainless steel adjustable bracket with studs. Dimensions: 16.7cm(6.57in) x 16.7cm(6.57in) x 9.3cm(3.66in). [See 108W Quad Row Heavy Duty Off Road LED Light.](#)

9" Quad Row Heavy Duty Off Road LED Light Bar with Multi Beam Technology – 108W

Lifetime warranty on all off road LED light bars. 108 Watt 9in Off Road LED light with 34 x 3 Watt high power CREE LEDs in a quad row array. Combination of 30 degree narrow spot beam pattern for focusing on long range distances and 60 degree wide flood beam pattern for close but wide range illumination for areas immediately surrounding the vehicle. Allows spot and flood beam patterns to be individually activated or combined for maximum light intensity and spread. 9-32VDC operating voltage range. IP67 waterproof black painted aluminum housing with integral heatsink and polycarbonate lens. 8in wire lead with a mating 9.5in sealed DT pigtail adapter. Includes stainless steel adjustable bracket with studs. Dimensions: 23.5cm(9.25in) x 9.3cm(3.66in) x 16.7cm(6.57in). [See 72W Quad Row Heavy Duty Off Road LED Light.](#)
