Universal Waterproof RGB LED Light Strip Kits – LED Tape Light with 9 SMDs/ft., 3 Chip RGB SMD LED 5050

Complete Universal Waterproof RGB LED Light Strip Kit provides outdoor illumination on decks, patios, gazebos and railings but can also be used indoors. The flexible 16-1/2′ strip has 150 Epistar RGB LEDs (5050 SMD) with an output of 552 lumens. Colors and color modes (flash, strobe, fade and smooth) are adjustable with the hand-held IR remote. The plug-and-play strip light uses a standard two-prong outlet and installs easily with a peel-and-stick adhesive backing. The silicone-encased strip is waterproof for year-round outdoor use and is designed to last 50,000 hours. It operates within a 12-14.5V DC range and can be cut into 3-LED segments. The kit includes 1 RGB LED light strip, controller with 4 connectors and IR remote, 12V DC power supply and mounting clips.
